DETAILED ACTION***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 96, 97, 102 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-5, 14-15, 19-22, 25 of U.S. Patent No. 5,891,112. Although the conflicting claims are not identical, they are not patentably distinct from each other because they both include main structural limitations such as a braid member of super elastic ribbons, a polymeric inner liner, a polymeric outer cover.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3731

2. Claims 96-99, 102 are rejected under 35 U.S.C. 102(b) as being anticipated by TRUCKAI-5,019,057.

As to claims 96-99 and 102, see Fig. 1, col. 3, line 43 to line 63 and col. 4, line 37-43. Inherently, TRUCKAI catheter can be bent to a bend diameter of no more than 2.5 mm to define a catheter section having a major diameter and a minor diameter as claimed.

Allowable Subject Matter

Claim 100 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
